1. The Vanishing Coin Trick:

This classic illusion is surprisingly simple to learn. You'll need a coin and a handkerchief. Step-by-Step Instructions: 1. The Setup:

Show the audience the coin in your hand. 2. The Secret:

Secretly palm the coin. This involves slipping the coin into your palm while making a fist, concealing it from view. Practice this move until it becomes natural. 3. The Illusion:

Place the handkerchief over your open hand, seemingly covering the coin. Slowly remove your hand from under the handkerchief, revealing an empty hand while secretly keeping the coin palmed. 4.

The Reveal: **With a flourish, dramatically reveal your**

empty hand, creating the illusion that the coin has vanished under the handkerchief. Table Showing the Stages of the Vanishing Coin Trick: | Stage | Action | Hand Position | Coin Location | ||||| | Presentation | Show the coin to the audience | Open hand | Visible | | Palming | Secretly palm the coin | Closed fist, coin hidden in palm | Hidden in palm | | Covering | Place handkerchief over empty hand | Open hand (seemingly with coin) | Hidden in palm | | Reveal | Show empty hand under handkerchief | Open hand | Hidden in palm |

2. The Amazing Card Prediction:

This trick requires forethought and a little misdirection. You will need a deck of cards. Step-by-Step Instructions: **1. The Setup: Before the trick, secretly memorize the bottom card of the deck (let's say it's the Queen of Hearts).**

2. The Illusion: Fan the cards out slightly, allowing the audience to see a glimpse of some cards, but without showing the bottom card. Tell them you'll predict the bottom

card. **3. The Misdirection:** Ask them to choose any number between 1 to 10, and take that many cards from the top of the deck. Put them aside. Now, ask them to take another 5 cards from the top. Place them aside. **4. The Reveal:** Take the remaining cards and put them face down on the table. Carefully, slide off the top cards one by one, except the very last card. Make the drama

suspenseful as the last card appears. Turn over the last card, revealing the Queen of Hearts – the card you memorized earlier! Key to Success: The misdirection of the numbers and multiple card selections distract them from the fact that the only card that matters is the one you originally memorized at the bottom.

3. Classic Spellbinding Card Trick (Two Card Monte and Reveal):

For this trick, you'll need three cards: two of the same value (say two Jacks) and one different card which is chosen by the audience. Step-by-Step Instructions: **1.** The Setup: *Show the audience the two matching cards (we have two Jacks) and then add one other card above them. Lay the cards down face down.* **2.** The Illusion: **The spectator chooses one of the cards to see which one turns over.** **3.** The Key: Have the spectator randomly pull out any two cards. They'll pick either 'Jack and Jack,' or 'Jack and a different card'. **4.** The Reveal: **If they pull one 'Jack and Jack,' it's their win. But if they pull one 'Jack and different cards', show them the card that they selected earlier in Step 2. The matching cards are your secret weapon.** Key to Success: *Misdirection is key as you show them the cards face down beforehand. The trick is in the selection process.*

4. The Jumping Rubber Band Trick:

This simple trick uses only a rubber band and your fingers.

Step-by-Step Instructions: **1.** The Setup: Place a rubber band around your index and middle fingers. **2.** The Illusion: **With a flick of the wrist and some clever misdirection, make it appear as though the rubber band is jumping from your index and middle finger to your pinky and ring finger and back again.** **3.** The Secret: *The secret lies in precisely moving the rubber band around your fingers, using your thumb to assist in the process almost invisibly. Practice this move until you can do it smoothly and quickly.*

5. The Magnetic Handkerchief Trick:

A simple but effective classic using a handkerchief and two small coins. Steps: **1.** The Setup: *You have two coins. Show one coin, secretly conceal the other one in your hand. Put the coin in one fist, and the handkerchief over the other.* **2.**

The Illusion: **Make it appear as if the handkerchief is magnetic as you move it closer to the concealed coin, seemingly pulling the hidden coin inside the handkerchief.** **3.** The Secret: **The secret is to slowly pull the hidden coin down, using your thumb and palm to lift the handkerchief at the same time, creating the illusion of a floating coin within your hand.** Related Topics:

The Power of Simplicity: Why Easy Magic Tricks Work

Before we jump into the nitty-gritty of specific tricks, it's important to understand **why** simple magic tricks are so effective. The secret isn't always in the complexity of the move, but in how you present it. The most powerful element in magic is [misdirection](#). By drawing your audience's attention to one thing, you can subtly manipulate another without them ever realizing it. This is a fundamental

principle that applies to almost every magic trick, easy or advanced.

Another key factor is psychology. We are naturally curious and often look for the most obvious explanation. Magic tricks play on this by presenting something that appears to defy logical explanation. When you perform an easy trick flawlessly, the audience's brains will struggle to find a rational answer, leading to that wonderful sense of wonder and astonishment.

Finally, presentation is everything! Your confidence, your patter (what you say), and your overall persona can elevate even the simplest trick into a truly magical experience. So, as you learn these tricks, remember to practice not just the mechanics, but also how you'll deliver them.

Card Magic for Beginners: Fooling Friends with a Deck

Card tricks are a staple of the magic world for a reason. A deck of cards is readily available, versatile, and offers endless possibilities. Here are a few easy card tricks that are guaranteed to impress:

The Four Aces Trick (A Classic for a

Reason!)

This is a foundational trick that demonstrates how a well-executed setup can lead to a seemingly impossible outcome. It requires a little preparation, but the payoff is huge.

What You'll Need:

1. A standard deck of playing cards.

The Secret Setup:

Before you begin, secretly place the four Aces on top of the deck. You can do this when no one is looking, or even claim you're "just tidying up the deck."

Step-by-Step Instructions:

1. **The Presentation:** Start by telling your audience you're going to try something special. You can say something like, "I'm going to try and locate the four most powerful cards in the deck and bring them together."
2. **The First Deal:** Deal the top 16 cards into four piles, face down, from left to right. Don't rush this; make it look casual.
3. **The "Magic" Move:** Now, here's where the magic happens, but it's disguised as routine. Pick up the *first* pile. Remove the top card and place it on the bottom of

that pile. Repeat this three times for the first pile.

4. **Repeat for Other Piles:** Do the same for the second, third, and fourth piles. For each pile, take the top card and place it on the bottom, three times.
5. **The Reveal:** After completing the move on all four piles, turn over the top card of each pile. To your audience's astonishment, they will be the four Aces!

Why It Works:

The secret lies in the mathematical nature of the trick. By dealing 16 cards and performing the "move" (taking the top card and placing it on the bottom) three times for each of the four piles, you are essentially creating a system that brings the four Aces (which were initially on top) to the top of each of the four piles. It's a brilliant demonstration of how a pre-arranged sequence can create an illusion of spontaneous magic.

The "Mind Reading" Card Trick (Simple Prediction)

This trick uses a simple force to make it appear as though you've predicted a card choice. It's all about how you guide your spectator.

What You'll Need:

1. A standard deck of playing cards.
2. A piece of paper and a pen (optional, for a more dramatic reveal).

Step-by-Step Instructions:

1. **The Setup:** Have the deck shuffled. Tell your spectator you're going to try and read their mind to predict the card they'll pick.
2. **The "Force":** Ask your spectator to cut the deck anywhere they like. As they cut, casually ask them to look at the top card of the bottom portion they've just cut. This is the card they will "choose."
3. **The "Prediction" (Optional but Recommended):**
Before they even cut, you can write down a prediction on a piece of paper and fold it up, telling them not to look. If you're not using a prediction, you'll just remember the card they choose.
4. **Completing the Cut:** Have them place the top portion of the deck on top of the bottom portion, completing the cut.
5. **The Reveal:** Now, ask them to tell you what card they looked at. If you made a prediction, reveal your paper. If not, simply state their chosen card with confidence.

Why It Works:

This is a classic example of a "force" in magic. By asking them to cut the deck and look at the top card of the bottom portion, you are subtly guiding them to a specific card. When they complete the cut, that card is now buried in the deck, and you can "reveal" it as if you knew it all along. The key is your confident delivery and the illusion that they had a free choice.

Coin Magic: Making Money Disappear and Reappear

Coin magic is incredibly tactile and visual. These tricks can be performed with just a few coins and can leave your audience utterly bewildered.

The Vanishing Coin (The Classic Palm)

This is one of the most fundamental coin tricks, and once you master it, you'll have a powerful tool in your magic arsenal. It relies on a technique called the "classic palm."

What You'll Need:

1. A single coin (a quarter or half-dollar works well).

The Secret Technique: The Classic Palm

This is how you hold a coin in your hand so it's hidden from view. When you hold your hand naturally, the coin should rest in the fleshy part of your palm, where your fingers meet your hand. Your fingers should be slightly curled, but not so much that it looks unnatural. The key is to relax your hand. Practice in front of a mirror until you can hold the coin there without it falling out.

Step-by-Step Instructions:

1. **The Presentation:** Hold the coin between the thumb and forefinger of your dominant hand. Show it clearly to your audience.
2. **The "Transfer":** Bring your non-dominant hand over as if to take the coin. As your non-dominant hand closes around the coin, your dominant hand secretly drops the coin into the classic palm. This needs to be a smooth, fluid motion.
3. **The Misdirection:** As your non-dominant hand closes into a fist and moves away (appearing to hold the coin), your dominant hand should relax and drop to its side, keeping the coin palmed. Your audience's eyes will follow the hand that **appears** to have the coin.
4. **The Vanish:** Slowly open your non-dominant hand, showing it to be empty. Make a magical gesture or say a

magic word.

5. **The Reappearance (Optional):** You can then reproduce the coin from anywhere – your pocket, behind someone's ear, etc. This often involves transferring the palmed coin to your fingertips when the audience is looking elsewhere.

Why It Works:

The success of this trick hinges on your ability to execute the classic palm invisibly and on effective misdirection. The audience believes the coin is in the hand that just moved away, while in reality, it's hidden in your other hand.

The Jumping Coin (A Simple Switch)

This trick creates the illusion that a coin has magically jumped from one hand to another.

What You'll Need:

1. Two identical coins.

Step-by-Step Instructions:

1. **The Setup:** Hold one coin in the fingertips of your left hand and the second coin in the palm of your right hand (using the classic palm from the previous trick). Make sure the palm is hidden by keeping your right hand relaxed and slightly closed.

2. **The Presentation:** Show the coin in your left hand to your audience, then close your left hand into a fist.
3. **The "Transfer":** Bring your right hand (with the palmed coin) towards your left hand. As your right hand moves to where your left hand is, secretly drop the palmed coin into your left fist as you open your left hand slightly to "receive" it. This needs to be a very quick and subtle action. Your right hand should then move away, appearing to have emptied its coin into your left.
4. **The Reveal:** Slowly open your right hand, showing it to be empty. Then, slowly open your left hand to reveal **both* coins!*

Why It Works:

This trick works by subtly adding a second coin to your left hand while the audience believes you are transferring the coin from your right to your left. The key is the quick, deceptive move where you drop the palmed coin into your left hand as it opens.

Beyond Cards and Coins: Other Easy Magic Tricks

Magic isn't limited to just cards and coins. There are many other simple yet effective illusions you can learn with everyday objects.

The Pen Through Bill Trick

This trick is a great way to demonstrate how you can apparently penetrate solid objects.

What You'll Need:

1. A banknote (preferably a slightly older, more flexible one).
2. A pen or pencil.

Step-by-Step Instructions:

1. **The Setup:** Hold the banknote loosely between your thumb and forefinger.
2. **The Presentation:** Show the pen to your audience and state that you're going to push it right through the banknote.
3. **The "Penetration":** As you bring the pen towards the banknote, you're going to use your thumb to create a slight "fold" or "wave" in the banknote. This subtle movement will allow the tip of the pen to push through the bill. The key is to do this smoothly and quickly so the audience doesn't see the actual penetration.
4. **The Reveal:** Once the pen has "gone through," pull it out, and the banknote will appear to have a hole in it that magically seals itself.

Why It Works:

The illusion is created by the temporary bending of the banknote. The audience sees the pen go *through*, but the slight flexibility of the paper allows the tip to push through a created crease, which then springs back, making it look like it's genuinely penetrated. The pen itself is not truly going through the bill; it's a clever manipulation of the material.

Tips for Mastering Your Easy Magic Tricks

Learning the steps is only half the battle. To truly become a confident magician, consider these essential tips:

1. **Practice, Practice, Practice:** This is the golden rule of magic. Rehearse your tricks in front of a mirror until the movements are fluid and natural. The more you practice, the less you'll have to think about the mechanics, freeing you up to focus on your presentation.
2. **Master the Art of Misdirection:** As we've discussed, misdirection is key. Learn to use your eyes, your words, and your body language to draw attention away from the secret move. A well-timed question or a gesture towards another part of the room can work wonders.
3. **Develop Your Patter:** What you say is just as important as what you do. Create a story or a theme for your tricks.

Your patter should be engaging, confident, and relevant to the illusion. It helps to build anticipation and adds to the overall magical experience.

4. **Know Your Audience:** Tailor your tricks to who you're performing for. A trick that's perfect for children might not land as well with adults, and vice versa. Understand their interests and tailor your performance accordingly.
5. **Don't Reveal Your Secrets:** The mystery is what makes magic so captivating. Once you've performed a trick, resist the urge to explain how it's done. Let the wonder linger. If someone asks, you can always give a playful, evasive answer.
6. **Be Confident:** Even if you make a small mistake, if you act like nothing went wrong, your audience is likely to believe you. Confidence sells the illusion.
7. **Start Simple:** Don't try to tackle overly complicated tricks right away. Master these easy magic tricks first. Once you're comfortable and confident, you can gradually move on to more challenging illusions.

The Joy of Magic: Bringing Wonder to Everyday Life

The Foundation of Simple Magic: Understanding the Craft

At the heart of every memorable magic performance lies a blend of skill, psychology, and presentation. Easy magic tricks strip away the elaborate setups of professional stage illusions, focusing instead on techniques that anyone can

learn and master. The key insight is that magic isn't about hidden gadgets—it's about mastering subtle movements, timing, and audience perception. This foundation empowers individuals to perform in schools, parties, or personal gatherings, turning ordinary moments into memorable experiences.

How to Master an Easy Trick: A Step-by-Step Example

Consider a classic yet beginner-friendly trick: making a borrowed coin disappear from hand to pocket. This illusion relies on misdirection and precise timing rather than complex mechanics. Begin by selecting a coin that fits comfortably in your palm—its weight and familiarity help maintain believability. Hold the coin palm-side up, allowing your audience to see it clearly, building trust. With a smooth upward motion, lift your hand slightly while subtly flicking the coin toward your pocket using your other hand. The flick must be quick and natural, masked by eye contact and verbal distraction. Practice synchronizing the movement with a glance or a joke to guide attention away from the hidden transfer. Through repetition, this sequence becomes second nature, enabling seamless execution that feels effortless to viewers.

Beyond technical skill, easy magic tricks foster emotional connection. Performing a trick successfully creates shared

wonder, sparking awe and conversation. Whether entertaining friends, entertaining children, or performing at a school talent show, these routines build confidence and communication skills. They also encourage creativity, prompting magicians to adapt tricks with personal flair—adding storytelling, humor, or thematic elements that deepen impact. Over time, this blend of simplicity and expression transforms magic from a performance into a meaningful art form. As digital platforms continue to democratize entertainment, the demand for accessible magic grows. Easy magic tricks step by step are perfectly suited to this shift, enabling anyone with a smartphone or social media presence to share their talents globally. Emerging tools like augmented reality and interactive apps are beginning to enhance magical experiences, offering new ways to blend physical sleight with digital wonder. Yet, the enduring appeal of hands-on, face-to-face magic suggests that human connection will remain at the core of the craft. Innovations will likely focus on simplifying complex illusions into digestible, engaging routines—keeping magic inclusive, authentic, and profoundly human. The future of magic lies not just in technology, but in empowering every person to become a storyteller of wonder, one easy trick at a time.

6. **Accessible for All Ages:** These **beginner magic tricks** are perfect for kids and adults alike, making it a fantastic family activity.

The Foundation of Wonder: Essential

Principles in Easy Magic

Before we dive into specific tricks, it's helpful to understand some fundamental principles that underpin many illusions. Knowing these concepts will not only help you learn the tricks faster but also make you a more insightful magician.

Misdirection: The Art of Guiding Attention

Arguably the most crucial element in magic is **misdirection**. It's the art of drawing your audience's attention to one thing while you perform a secret action elsewhere. Think of it as a theatrical spotlight. You want the spotlight on your hands making the magic happen, not on the subtle move you're making to achieve it. This can be achieved through:

1. **Verbal Patter:** What you say can direct their focus. Asking a question, telling a story, or even a well-timed joke can be a powerful distraction.
2. **Eye Contact:** Where you look, they look. Directing your gaze to a specific point can subtly guide your spectator's eyes.
3. **Gesture:** A prominent gesture with one hand can divert attention from the other hand performing a secret move.
4. **Surprise:** Unexpected events naturally grab attention, giving you a window to execute a secret move.

The Power of Observation: What the Audience Sees (and Doesn't See)

Magic relies on controlling what the audience perceives. Understanding their line of sight and what they are likely to notice is vital. For instance, if a magician is holding a card in their right hand, an audience member will naturally focus on the cards and the magician's right hand, not realizing the magician's left hand is subtly performing a sleight of hand move.

Psychology and Expectation: Playing with the Mind

Magicians are essentially psychological manipulators. They play on our expectations and our ingrained beliefs about how the world works. By presenting something that defies these expectations, the illusion of magic is created. Learning **magic principles** is key to understanding how these psychological elements are employed.

Dive In! Easy Magic Tricks You Can Learn Today (Step-by-Step)

Now, let's get to the fun part! We'll explore a few classic and remarkably effective **easy magic tricks step by step** that require minimal props and practice.

Trick 1: The Appearing/Disappearing Coin (A Classic Beginner Trick)

This is a fundamental trick that teaches core concepts of misdirection and sleight of hand. It's often one of the first **easy magic tricks for kids** and adults to learn.

What You'll Need:

1. A coin (any size will do, but a half-dollar or quarter is good for visibility)

The Secret: The French Drop

The "French Drop" is a sleight of hand move where you appear to take a coin with one hand, but in reality, you retain it in the other.

Step-by-Step Instructions:

1. **Preparation:** Hold the coin in your left hand, resting on your curled fingers. Your thumb should be slightly extended, ready to grip the coin. The palm of your left hand should be facing upwards or slightly towards you.
2. **The "Take":** Bring your right hand over your left, as if to take the coin. Your right hand should move palm down, with your fingers closing around where the coin appears to be.

3. **The Secret Move:** As your right hand's fingers close around the *empty space* where the coin *should* be, your left thumb subtly pulls the coin back into your left palm. The motion should be fluid and synchronized. Your left hand should then drop slightly to conceal the coin.
4. **The Reveal (Disappearance):** Show your audience your closed right fist, which appears to hold the coin. Blow on your fist, say a magic word, and then slowly open your right hand to reveal it's empty. The coin has "vanished"!
5. **The Reappearance (Optional):** To make the coin reappear, you can use the same French Drop principle in reverse, or simply reach into your pocket or behind someone's ear with your left hand (where the coin is concealed) and produce it. The key is to have practiced the timing so it looks natural.

Tips for Success:

1. Practice in front of a mirror. The move should look seamless.
2. Don't rush. A slow, deliberate "take" looks more convincing.
3. Maintain eye contact with your audience throughout the "take." This is your primary misdirection.
4. Develop a bit of patter. "Watch closely, I'll make this coin disappear..."

Trick 2: The Jumping Rubber Band (A Visual and Engaging Illusion)

This trick is incredibly visual and relies on a clever use of tension and release. It's another excellent example of **easy magic tricks step by step** with everyday objects.

What You'll Need:

1. Two rubber bands (preferably the same color and size)

The Secret: Clever Finger Placement

The secret lies in how you initially place the rubber bands on your fingers, creating a hidden connection that allows them to "jump."

Step-by-Step Instructions:

1. **Setup:** Place one rubber band around your index and middle fingers of your left hand. Ensure it sits comfortably just below the knuckles.
2. **The "Magic" Setup:** Now, take the second rubber band. This is the crucial part. With your right hand, stretch the second rubber band and, *while your left hand is still in a fist*, place the second rubber band *over all four fingers* of your left hand (index, middle, ring, and pinky). The second rubber band should be stretched taut across the

back of your knuckles. When you open your left hand, this second rubber band will appear to be around just the index and middle fingers, along with the first one.

3. **The Reveal (The Jump):** Now, make a fist with your left hand again. As you do this, the tension of the second rubber band will naturally cause it to snap over to the ring and pinky fingers.
4. **The "Jump":** Show your audience your left hand with both rubber bands around the index and middle fingers. Say a magic word or snap your fingers. Then, quickly open your left hand, and the rubber band will appear to have magically "jumped" to your ring and pinky fingers.

Tips for Success:

1. Practice the setup smoothly so it looks like you're just casually putting the second band on.
2. The "jump" happens when you make a fist. Exaggerate this action slightly.
3. Make sure the rubber bands are not too tight or too loose.
4. For a more dramatic effect, you can say something like, "I'm going to make this rubber band jump from one pair of fingers to another."

Trick 3: The Card Force (The Foundation of

Many Card Tricks)

Card tricks are a staple of magic, and learning a basic **card force** is your gateway to a vast world of illusions. A card force allows you to subtly influence your spectator to choose a specific card without them realizing it.

What You'll Need:

1. A standard deck of playing cards.

The Secret: The Riffle Force

The Riffle Force is one of the most common and effective ways to force a card. It's about timing and a little bit of sleight of hand.

Step-by-Step Instructions:

1. **Preparation:** Know the card you want to force. Let's say you want to force the Queen of Hearts. Position the Queen of Hearts about 10-15 cards from the top of the deck. You can do this before you start performing, or discreetly while handling the deck.
2. **The Riffle:** Hold the deck in your left hand, your thumb on the side of the deck. Your right hand will do the riffle.
3. **The Spectator's Involvement:** Ask your spectator to say "stop" at any time as you riffle through the deck.
4. **The "Stop":** As you riffle the cards from the top of the

deck with your right thumb, listen for their "stop."

5. **The Force:** When they say "stop," your goal is to stop riffing **exactly** on the card you want to force (the Queen of Hearts in our example). This takes practice. You'll be looking at the bottom edge of the cards as you riffle. When you see the Queen of Hearts approaching the point where you'll stop, subtly ease up your riffing motion and let your left thumb catch it.
6. **The Reveal:** Once you've stopped, bring the deck up and show them the card their "stop" landed on. Because they **believe** they could have stopped anywhere, they will feel it was their choice, even though you guided them to your chosen card.

Tips for Success:

1. **Practice, Practice, Practice:** The Riffle Force is entirely dependent on your ability to time your stop. Spend time just riffing and stopping on arbitrary cards to build muscle memory.
2. **Natural Presentation:** Act as if you are genuinely allowing them to stop anywhere. Don't look tense or overly focused on the riffle.
3. **Vary the Spectator's Choice:** While you are forcing a card, make it **seem** like their choice. Use phrases like, "Pick any card you like, but don't tell me what it is until I ask."

4. **Combine with Other Effects:** Once you've mastered the force, you can use it in conjunction with prediction effects, mind-reading illusions, or other card magic principles.

Beyond the Basics: Continuing Your Magical Journey

These **easy magic tricks step by step** are just the beginning. Once you've gained confidence and mastered these foundational illusions, you can explore a wealth of further learning:

Questions & Answers About easy magic tricks step by step

No	Question	Answer
----	----------	--------

1	What's a super simple magic trick I can learn in 5 minutes for my friends?	The 'Jumping Rubber Band' is incredibly easy and always gets a reaction! You'll need two rubber bands. Place one around your first two fingers, then wrap the second one around all four fingers of the same hand. When you make a fist, the second band will magically jump to your ring and pinky fingers when you open your hand. Practice the motion to make it smooth!
2	I want to make a coin disappear! What's the easiest way to do it?	The 'Fake Take' coin vanish is a classic and simple method. Hold a coin between your thumb and forefinger of one hand. Pretend to take it with your other hand, but instead, secretly drop it into the palm of the hand that was holding it. Then, with your empty hand, make a magical gesture and open it to show the coin is gone. The key is misdirection and a natural-looking 'take'.

3	Can you teach me a card trick that doesn't require any fancy shuffling?	The 'Ambitious Card' is fantastic for beginners. You'll need a deck of cards. Place a card (like the Queen of Hearts) into the middle of the deck. Make a magical gesture, and when you spread the cards, the Queen of Hearts will have mysteriously moved to the top! Repeat this, each time placing the chosen card back into the middle, and it will always return to the top. The secret lies in secretly bringing the card to the top after placing it in the middle.
4	I'm looking for a mentalism trick that's easy to perform. Any ideas?	The 'Psychic Numbers' trick is great for a simple mentalism effect. Ask someone to think of a number between 1 and 10. Tell them to double it, add 8, divide by 2, and then subtract the original number they thought of. No matter what number they choose, the result will always be 4! You can then 'psychically' reveal this number.

5	What's a good magic trick for kids that's super easy to learn and perform?	The 'Pen Through Bill' is a big hit with kids! You need a pen and a dollar bill. Hold the bill out, and with the pen, pretend to push it right through the bill. The trick is to hold the pen against your thumb and finger in such a way that it appears to penetrate the bill, but you're actually just bending the bill slightly around it. Practice in a mirror to get the illusion just right!
