Don't skip this crucial first step! |

|   |                                                                                                   |                                                                                                                                                                                                                                                                |

| 2 | What's the biggest mistake new coffee shop owners make, and how can I avoid it?                   | Underestimating startup and operating costs is a huge pitfall. Get detailed quotes for equipment, rent, inventory, staffing, and marketing. Have a contingency fund for unexpected expenses. It's better to overestimate than be caught short.                 |
| 3 | Do I need to be a coffee expert to open a shop?                                                   | While passion for coffee is great, deep expertise isn't strictly required. | 4 | What kind of coffee shop should I open? A cozy cafe, a quick grab-and-go spot, or something else? | This depends on your target market and location. | 5 | How much money do I realistically need to open a coffee shop?                                     | Costs vary wildly, but expect to need anywhere from \$50,000 to \$300,000 or more. This includes leasehold improvements, equipment, initial inventory, licensing, marketing, and working capital for the first few months. Thorough financial planning is key. |

|   |                                                                                      |                                                                                                                                                                                                                                                                    |
|---|--------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6 | What's the deal with licenses and permits? It sounds complicated!                    | It can be, but it's essential. You'll likely need business licenses, food service permits, health permits, and potentially liquor licenses. | 7 | What's the most important thing to get right besides the coffee itself?              | Customer experience! This includes friendly and efficient service, a welcoming atmosphere, comfortable seating, and clean restrooms. People come for the coffee, but they return for the overall positive experience.                                              |
