From Sketch to Structure: The Design Philosophy

Sabuda's design process is a careful balance of artistic vision and structural integrity. He doesn't just think about how a scene looks; he thinks about how it will fold, how it will stand, and how it will unfold. * **Concept Development:** It starts with a deep dive into the source material, whether it's a classic novel or an original idea. Sabuda identifies the key moments, characters, and settings that will translate best into three-dimensional form. * **Storyboarding and Sketching:** He then sketches out ideas, often in multiple layers, envisioning how each element will interact and move. This stage involves a lot of trial and error. * **Paper Engineering:** This is the core of his genius. Sabuda designs the complex cuts, folds, and tabs that will allow the paper structures to pop up and collapse gracefully. He uses specialized software and his own intuition to create these intricate mechanisms. * **Illustration and Color:** Once the structure is designed, he works on the illustrations. The art needs to complement the pop-up elements, enhancing the depth and storytelling without overwhelming the paper engineering. He often uses a distinctive color palette that is both vibrant and sophisticated. * **Prototyping and Refinement:** Numerous prototypes are created and tested. Sabuda constantly refines the designs to ensure they are durable, easy to operate, and visually stunning. The goal is always to create a seamless and magical experience for the reader.

The Materials and Techniques: A Symphony of Paper

Sabuda's mastery of materials is as crucial as his design skills. He doesn't just use standard cardstock. * **Variety of Papers:** He employs a range of papers, from heavy cardstock for structural elements to delicate, translucent vellum for ethereal effects. The texture, weight, and finish of each paper are carefully chosen to contribute to the overall aesthetic and functionality. * **Die-Cutting

and Embossing:** Precise die-cutting is essential for creating clean lines and intricate shapes. Embossing can add subtle texture and dimension to characters and backgrounds. * **Layering and Overlapping:** Sabuda is a master of layering. He strategically places elements on different planes to create a convincing illusion of depth and perspective. * **Innovative Mechanisms:** He is known for his creative use of various paper mechanisms, including parallel folds, pop-ups that rise and fall, and even elements that spin or move.
