The dial typically cycles through various pre-set programs optimized for different fabric types (cottons, synthetics, delicates etc.), while the buttons allow for customisation. Understanding the symbols on the dial and buttons is crucial. Many manuals use standardized icons, but sometimes deciphering them requires careful study.

Even the most reliable appliances can encounter problems. The Electrolux WT38UK is no exception. Here are some frequently encountered issues and potential solutions:

- Machine won't start: **Check if the door is properly closed, the power cord is plugged in securely, and the power supply is functioning. A tripped circuit breaker could also be the cause.**

Checking the drain hose: **Periodically examine the drain hose for kinks, blockages, or damage. Ensure it is properly connected and that water can drain freely.** • Exterior cleaning: **Clean the exterior of the machine with a damp cloth to remove any dust or spills.
